During these lean years one has been apt to neglect many important duties. Root-pruning of Evergreens is most necessary yet not immediately apparent if neglected.

Cole has a regular schedule for Root-pruning — In fact, the majority of our Evergreens are Root-pruned at least every two years.

Depression spoiled evergreens in huge quantities are available throughout the country at the buyer's price. NONE are available at Coles. Ours are dense and shapely, they are root pruned, and they are properly spaced to give light and air on all sides. We will be happy to have you visit us and inspect our plant.

ROSES

We add a number of thoroughly tested roses to our collection each year and at the same time eliminate a few of the least worth-while.

We endeavor to always have a very high class collection to meet all needs. (See Pages 58 to 63).

President Herbert Hoover. Beautiful suf- fusion of maroon, orange, and gold--	.30	.25	.22
President Plumecocq. soft coppery yellow and salmon -----	.40	.35	.30

NORTHERN GROWN ROSES

Our trade recognizes the uniform quality, hardiness, and "trueness to name" of Cole's Painesville Grown roses. We have guarded this reputation zealously and have gone to no end of labor to see that we had an ample crop for our regular customers in the face, many times, of adverse economic, trade, and weather conditions.

We hope you will bear in mind the conditions herein mentioned when selecting your source of supply.

Vivid. Color of American Beauty Rose. Large, vigorous and free-flowering. Decorative. Early —2' -----	.15	.12

NEW KOREAN CHRYSANTHEMUMS

Without question the greatest new creation in the perennial world. Korean Chrysanthemums are perfectly hardy—a requisite for satisfaction lacking in the old types; they are easier to grow and are more profuse in blooming. The lovely pastel shades defy description. Wonderful for table decorations and compelling for color effect in the garden.

	5 Each	25 Each
AGNES SELKIRK CLARK. Mammoth single shading from bronzy pink to salmon—2'-----	\$.25	\$.15
APHRODITE. Pink and ivory. Profuse bloomer-----	.12½	.10

RESPONSIBILITY

We endeavor to send our patrons the grade and quality of stock ordered. We do not guarantee our products or assume any responsibility after they leave our nursery, as conditions always exist over which we have no control. It is understood, in case of error on our part, that we shall not be responsible for a greater amount than the price paid.

TERMS

5% OFF FOR CASH before shipment on purchases at prices listed herein. Be certain to add enough extra to cover packing. This will eliminate C. O. D. costs. Over-payments will be returned promptly.

To parties having satisfactory credit arrangement or account with us, 2% 10 days, 30 days net.

No claims for rejections or deficiencies will be entertained unless made within 10 days after arrival of goods.

5 to 25 of one variety and size will be furnished at the 10 rate, 25 to 250 at 100 rate; 250 or more at 1000 rate.

TRUCK DELIVERIES

During planting season, we are making daily deliveries to Cleveland and vicinity, and frequent deliveries to other cities within two hundred miles of Painesville. Charges reasonable.

PLANT PATENT NOTICE — PROPAGATION RIGHTS RESERVED

The Truehedge Columberry is protected by Plant Patent No. 110 under the U. S. Patent Laws. Asexual reproduction or disposition by sale, gift or otherwise, of scions, buds, or cuttings for such reproduction is prohibited unless license is previously obtained from the patent owners. Unauthorized reproductions, sale, or distribution of propagation material of this plant will subject the one engaging in the same to prosecution for infringement. For resale at Retail Only except under license from the patent owners.

The above conditions also apply to all other patented plants which we sell.

TRUEHEDGE GUARANTEE

Cole guarantees that Truehedge Columnberry plants sold by Cole at prices listed herein will create a formal hedge of height desired **at less cost and more quickly** than plants of Japanese Barberry twice as large under same conditions (See note below).

To cover this guarantee we will supply sufficient plants (Absolutely Free) for a hedge of the same length, your selection from Japanese Barberry or 3 kinds of Privet.

THE COLE NURSERY COMPANY, PAINESVILLE, OHIO

Note:—A fair comparison using transplanted stock would be—

Truehedge 9 to 12" size with Japanese Barberry 18 to 24"

Truehedge 12 to 15" size with Japanese Barberry 24 to 30"

Labor to be figured at ordinary rates.

In this catalogue where ball sizes are shown, viz., (15" Ball) etc., this is the approximate size supplied. If larger or smaller balls are required charge will be adjusted in conformity with the following schedule.

Where balling is shown as "Extra" or where balls are required on shrubs, trees and plants not catalogued "Balled (B&B)" add to listed price according to the following schedule.

The gloriously beautiful
"PLANT SENSATION" which will
be introduced to the TRADE by The
Cole Nursery Co. in Spring of 1940!

Fuchsia riccartoni 'Scarlet Beauty'

While the Fuchsia is of American origin and the tender varieties have long been known to flower fanciers, it has been left to The Cole Nursery Co., to introduce a herbaceous shrub type of sufficient hardiness to withstand the rigors of our northern winters.

The interesting story connected with its origin and naming is as follows:

One of our neighbors, Mr. Geo. C. Lodge, who had been a gardener in his homeland, England, in his younger days, came to the U. S. and settled within ten miles of Painesville. As the years rolled by and he had more leisure Mr. Lodge thought more and more of the beauty of the plants with which he had worked in his boyhood. So he determined to import some for trial in our climate, and, as the Fuchsia was his first love in the "Plant World," naturally he turned to the origination of a type which would combine hardiness with the beauty of the variety which had grown around the dooryard of his boyhood home.

To this end he imported quantities of seed of these Fuchsias. For several years he was doomed to disappointment as, out of the thousands of seedlings raised, not one survived the first winter.

Although discouraged Mr. Lodge

continued importing and planting seed. Finally his perseverance was rewarded in the finding of a single plant, which without protection, had survived one of the more severe winters in this locality. When this plant bloomed it exceeded by far his greatest expectations in size and quantity of flowers, vivid coloring, strength, character and other qualities sought. From this single plant he and The Cole Nursery Co., in about twelve years have propagated asexually approximately 100,000 plants.

The name "Scarlet Beauty" was given by a visitor who at her first sight of the plant exclaimed, "My, isn't that a scarlet beauty," whereupon Mr. Lodge replied, "Lady, you have named it."

Words cannot do justice to this plant but picture to yourself an upright plant having from twenty to forty stems which at maturity attain a height of three feet, and which from the middle of June until severe frosts will bear upwards of five thousand flowers one and one-half inches long, of rose-red, with corolla of mulberry purple, and you will visualize that which is destined to become the greatest "Plant Sensation" since the introduction of Truehedge Columnberry.
